HOMELESS

Assistance Program

Homeless Assistance Program is a strength-based, creative problem-solving conversation with people experiencing homelessness or who are threatened by the possibility. This program can be designed to assist individuals in the navigation of programs and services that can guide them in a path toward housing and stability. It is believed that, with proper guidance and support, individuals can become their own best problem solvers.

MOBILE CRISIS RESPONSE TEAMS

The Mobile Crisis Response Teams are part of the Crisis Support System of Care Program. These are field based teams consisting of Clinical Therapists, Behavioral Health Specialist and Peer Support Specialist working collaboratively with Law Enforcement, Emergency Departments, Schools, Cities, and other Community Agencies to decrease the need for inpatient hospitalizations, as well as decreasing the amount of time that these agencies are dedicating to individuals in psychiatric crisis. The Mobile Crisis Response Teams are able to work with individuals from all age groups.

MOBILE CRISIS MANAGEMENT TEAM

Mobile Crisis Management Teams (MCMT) provide mobile crisis response and wrap-around support to serve individuals with ongoing behavioral health care, including mental health and substance use treatment. The MCMT are teams comprised of four multidisciplinary staff members, including clinical therapists, peer support specialists, substance use counselors, as well as a homeless and housing case manager. Each team will have specialty training in crisis intervention and risk assessment, peer support, intensive case management services, including homeless outreach and housing, American Society of Addiction Medicine level of care screening, motivational enhancement and interviewing techniques, counseling, and access to residential treatment for mental health and substance use disorders.
